

Lincoln High School
Mitigation Community Meeting
Sept. 24, 2009

Present: Jackie Zeller, Dan Chapman, Kimberly DeAnda, Chris Escher
Began meeting at 5:04 pm

1. Meeting schedule

- 5:00 pm October 8
- 5:00 pm December 3

All members present are able to attend the next two meetings. One meeting will be held after the next home game and one at the end of the season.

2. Sept 11 game

Kimberly walked the exterior of the stadium and all streets appeared quiet during the game. Dan drove by several times and experienced little traffic or congestion. Kids on the corners were helpful. Exit traffic took 15-20 minutes and there was a little more standing and waiting for rides than usual. Police Cruiser on Dana is very helpful. JV bus waited on Olive with kids in bus. Not a good idea. Could become noisy. Buses will drop off and pick up on Dana. There seemed to be more parked cars on Calaveras than usual. Noise level was good, in part because the band was not playing. Crowd was quiet due to uneven score. This game was held earlier in the year while the trees were still in leaf. This provided a nice screen to filter the lights.

3. Review the mitigation plan

The plan still appears to be effective. No changes were made except the elimination of the phrase “and road closures” in section 6.3. The school does not actually close off the roads but instead diverts the traffic. This phrase indicates that roads are closed per SJPD. The communication to opposing team and local families remains in that section.

4. Improvements to the plan

Sign on Calaveras and Dana needs to be in the street with cones so it is not blocked by parked cars. Place a sign on Calaveras directing fans to park in the Dana Lot. This will be added to the plan.

Meeting ended at 5:38 pm
